

| | |
|--------------------|---|
| Name | TONI-Flex-Spikes |
| Function | Spikes keep pigeons and other birds away from protected areas with the help of sufficiently long parallel plastic wires (3 rows). The spikes are so flexible and can even be bent around pipes. |
| Constituents | Polypropylene spikes and base |
| Material | UV-protected polypropylene, weather proof |
| Thickness of wires | 12mm-3 mm |
| Height | 110 mm |
| Distance of wires | 37mm (inclined) |
| Number of wires | 3 rows |
| Installation | Flex-Spikes (S1801) are glued or nailed to the surface. Deinstallation of the flex-spikes is also easy without any residuals. |

| | Accessories | Article-No : |
|---|-----------------------|--------------|
| 1 | Primer | C-3101 |
| 2 | Bitumen adhesive tape | S-17 |

Flex-Spikes are available in all RAL-colours with a 250m minimum order

Liability advise

TONI-Products are long established and proven bird control products. However, TONI products can only work effectively as part of an overall and planned programme of bird control. This includes hygiene management and the use of professionally trained personnel. Without limitation, TONI Bird Control Solutions GmbH & Co. KG will not accept liability for any consequences as a result of poor equipment maintenance, misuse, inappropriate use, lack of operative training, failure of due diligence or through lack of prior project consultation. In some countries, the use of TONI products may require an official permit for building regulation or nature conservation. TONI will not accept liability for any consequences as a result of missing approvals.
