

Name	Antec netting for adhesive
Function	The stainless-steel cable mesh X-Tend netting protects building structures from birds. It also can be used for greening, facade walls or antifaall guard in parkhouses.
Components	Stainless steel wires 1.4401 with different diameters Ferrules tinned or Stainless steel
Geometry	The mesh size (MS) describes the distance between the middle of the ferrules to the middle of the wire. The ideal mesh design can be reached with a 60° degree, at which mesh size and horizontal distance between the center of the ferrules are equal. This measure produces the best netting stability, our calculations are usually based on this measure.
Colours	Can be tailored towards client demands.

	Accessories	Article-No :
1	Eye Screw	D-0803
2	Ring clips	N-1401
3	Ring clip pincers	N-15
4	Zip for netting	N-1601
5	Netting clips	N-1701
6	Stainless steel cable	N-1801
7	Galvanised cable	N-19
8	Clamp	N-2001
9	Simplex clamp	N-2101
10	Turnbuckle	N-2201
11	Netting Spacer	N-2301
12	Wire connectors	N-2405
13	Beam Clamp	N-2501
14	Netting scissors	N-2601
15	Magnets for attaching netting	N-33
16	Holders for PE nettings	N-40

**Liability advise**

TONI-Products are long established and proven bird control products. However, TONI products can only work effectively as part of an overall and planned programme of bird control. This includes hygiene management and the use of professionally trained personnel. Without limitation, TONI Bird Control Solutions GmbH & Co. KG will not accept liability for any consequences as a result of poor equipment maintenance, misuse, inappropriate use, lack of operative training, failure of due diligence or through lack of prior project consultation. In some countries, the use of TONI products may require an official permit for building regulation or nature conservation. TONI will not accept liability for any consequences as a result of missing approvals.
