Constituents	Bird control solutions for Bridges: Polycarbonate plates
Function	Bird protection for bridges make sure that birds cannot sit within or on abutments or pillar heads
Constituents	Polycarbonate plates Fastening materials (high-alloyed steel)
Material	Polycarbonate with UV-protection (extra charge) Fastening materials (high-alloyed steel)
Colour	Transparent
Mesh size	50mm x 50mm
Thickness	6mm / 5mm
Weather resistance	High
Transparency	84-87%
Heat expansion	3mm per meter

**Liability advise**  
 TONI-Products are long established and proven bird control products. However, TONI products can only work effectively as part of an overall and planned programme of bird control. This includes hygiene management and the use of professionally trained personnel. Without limitation, TONI Bird Control Solutions GmbH & Co. KG will not accept liability for any consequences as a result of poor equipment maintenance, misuse, inappropriate use, lack of operative training, failure of due diligence or through lack of prior project consultation. In some countries, the use of TONI products may require an official permit for building regulation or nature conservation. TONI will not accept liability for any consequences as a result of missing approvals.
